- [H2] Ideal for companies that require a fast and efficient IT support service from a UK based helpdesk. This cost effective IT support is designed for customers who do not require our comprehensive IT Managed Service and prefer to pay for support with pre-paid block hours and then using them when they are required. Imagine how much faster issues will get resolved if you can call for support without increasing your monthly IT expenses. Block hours are also useful if there is a specific IT requirement or a new system is being implemented and additional IT support is required. On-site visits and remote support are both covered - so there are no hidden extras.

Office 365 provides familiar Microsoft Office collaboration and productivity tools delivered through the cloud. Everyone can work together easily with anywhere access to email, web conferencing, documents and calendars. It includes business-class security and is backed by Microsoft. Whether you are a small business or multinational enterprise, Office 365 offers plans designed to fit your organization's unique needs. Here are some of the key business benefits of Office 365: Simplicity and reliability: You won't have to worry about buying and maintaining on-site servers. Nor will you have to keep up with product updates. Cash flow and ease of purchasing: For all businesses, consistent and predictable cash flow can be of more value than profitability. Office 365 offers businesses the ability to purchase using a monthly subscription rather than having to spend a lot of money up front. This really helps spread out your IT investments, and can enable a lot more flexibility. Better functionality: Since Office 365 is based in the cloud, businesses have the ability to access their information from pretty much anywhere and on pretty much any device. Simplicity leads to savings: With Microsoft Office 365 you won't need to purchase and maintain servers, purchase product updates, and retain expensive IT staff.
