support service from a UK based helpdesk. This cost effective IT support is designed for customers who do not require our comprehensive IT Managed Service and prefer to pay for support with pre-paid block hours and then using them when they are required. Imagine how much faster issues will get resolved if you can call for support without increasing your monthly IT expenses. Block hours are also useful if there is a specific IT requirement or a new system is being implemented and additional IT support is required. On-site visits and remote support are both covered - so there are no hidden extras.
